

Hix Group is celebrating its 25th Year in business and is continuing to grow!

We currently have a number of roles available, to join our Penrith Based business, with a range of government, commercial, construction & domestic clients throughout the Sydney Metropolitan area

ELECTRICAL TRADES -TECHNICAL & ADMINISTRATIVE SUPPORT

This is a new & unique role, in our Penrith Office, for an experienced electrician with maintenance experience BUT who is now seeking to work in an administrative role, within our Electrical division.

Perhaps you are now unable to or don't want to continue to perform the physically challenging parts of a trades role or simply prefer to work in the office rather than on the tools.

You will be responsible for prep & checking of invoices, quotes & documentation for jobs, assisting the managers with progress & handling of scheduled works & other admin duties related to progress of works.

In addition to your trades background you will have computer skills, strong communication skills & attention to detail & accuracy.

Apprentices – 2nd or 3rd Year & new apprentices for 2017/18 PLUMBING AND ELECTRICAL

Looking for a great team and a structured training program to complete your trade and move into a permanent role?

LICENSED ELECTRICIANS - MAINTENANCE

We are adding to our team of qualified maintenance electricians, and are seeking licensed tradespeople with experience in domestic & commercial works, fault finding, stove & hot water repairs & all general electrical repairs & installs.

Works will be across Government, Council, commercial, industrial & domestic sites and will include repairs, maintenance installation, testing & inspection and fitout works.

You will be an efficient & customer based tradesperson who values the service Hix Group provides to clients & you will be willing & able to train and develop our apprentices who are also a valuable part of our company's growth.

FIRE SERVICES TECHNICIAN

We are seeking an EXPERIENCED Fire Services Technician to join our PENRITH BASED team to carry out all aspects of Essential Fire Services testing, inspection, maintenance and repairs & fault finding with a particular focus on Fire Panels and EWIS systems.

We provide services for a range of clients including Local Councils, Strata Clients, commercial and industrial.

The Successful applicant will be an energetic "people person" who is well organized and can communicate effectively with clients and staff alike & is comfortable recording all job information using Smartphone/ Electronic Table, via our Job Management System.

MUST have a sound knowledge of an experience in the above areas and clear understanding & willingness to follow the relevant Australian Standards & Building Codes relating to the Industry and all aspects of Work Health and Safety.

FPAS Training an advantage.

You will be meticulous with quality, well presented, willing to use our electronic job management system & keen to embrace our Hix Group Culture of Team work, Pride & Responsibility. **Send your resume now to HR@hix.com.au** (applications will be treated in strict confidence)
